

# English for Professionals Exam

[eproexam.com](https://eproexam.com)

E^Pro is an exam that accurately, efficiently and comprehensively measures spoken and written English fluency for global business professionals. Aimed towards individuals whose first language is not English, E^Pro is an effective way to assess an individual's ability to proficiently function within global business settings that require strong English communication skills.

## Key features of E^Pro

- Integrated: Tests four pillars of English in one exam, including productive skills: Reading, Writing, Listening and Speaking.
- Efficient: 90 minute exam time, on demand computer-based testing, detailed score report (5 pages) within a week.
- Relevant: Test business-related English communication skills used in the work place.
- Reliable: Delivered in highly secure Pearson VUE Test Centers.
- Accurate and Consistent: E^Pro has proven quality and accuracy, delivering consistent, reliable testing without the typical variability of multiple evaluators

and locations. E^Pro features automated scoring, using state of the art artificial intelligence models.

- Cost Effective: E^Pro includes all four pillars of English testing in one exam rather than two with a competitive price.
- Scalable and Practical: E^Pro can be taken on demand, in multiple external locations or in your own corporate office, making it the only practical solution for enterprise use.

## Benefits of Using E^Pro

- Improve the quality of communication.
- Improve productivity.
- Reduced complaints attributed to language problems.
- Improve alignment across teams, regions.
- Reduce screening time, enable faster decisions.
- Reduce the number of hiring “mistakes”.

By testing potential employees' English capabilities, companies will be able to determine the most qualified candidates that will operate effectively in an English speaking environment.
