

**FOCUS YOUR
INTERNET SKILLS.**

**SHARPEN YOUR
DIGITAL LITERACY.**

**CLARIFY THE VALUE
OF YOUR EDUCATION.**

Demand for computer and database professionals is expected to increase much faster than all other occupations (37%) through 2016. Fueling this demand is the growth of information networking, the expansion of client-server environments, and the need for computer specialists to use their knowledge and skills in a problem-solving capacity.

Help Your Students Define Themselves in a Digital World

In a world focused on computers, one certification can give your students a clear advantage: The Internet and Computing Core Certification (IC³). This globally recognized certification provides both students and job seekers with the foundation of knowledge needed to excel in fields that involve computers and the Internet.

The IC³ Global Standard 4 reflects the most relevant skills for school and business today, including:

- Computing Fundamentals
- Key Applications
- Living Online

With IC³ Certification, your students have the focus they need to succeed in both their academic and career pursuits.

Living Online

Covers skills for working in an Internet or networked environment.

Key Applications

Covers popular word processing, spreadsheet and presentation applications and the common features of all applications.

Computing Fundamentals

Covers a foundational understanding of computing.

Internet and Computing Core Certification

Exams make use of the latest testing technologies, including the integration of both performance-based and knowledge-based testing.

Benefits to College Instructors.

Based on the current thinking and best practices in technology education, the IC³ Certification program equips instructors with a proven, state-of-the-art program that offers several advantages, including:

- Reduces class-time covering remedial computing and Internet concepts
- Unbiased examination through psychometrically validated certification exams.
- Universal portability and relevance as a recognized global standard in digital literacy.
- Ready solution that is more cost effective and time efficient for addressing accreditation requirements for student digital literacy
- A professional development tool that boosts instructor confidence to integrate technology in the classroom.

Benefits to College Students.

By helping you focus and validate your students' skills in the critical areas of computer technology and the Internet, IC³ Certification provides your students educational and occupational advantages, including:

- Portable credential that is valued anywhere and accessible through fraud-proof online digital transcripts
- Prepares students with tools to succeed in their higher education experience
- Validation of an industry-recognized credential for employment and immediate job seekers in emerging fields.
- Provide a path for students to earn additional credit by achieving Certiport IC³, accepted for credit by American Council on Education (ACE)
