**FOCUS YOUR
INTERNET SKILLS.**

**SHARPEN YOUR
DIGITAL LITERACY.**

**CLARIFY THE VALUE
OF YOUR EDUCATION.**

"Anyone can say they know computers, but our students can prove they have these technical skills vital for success. It also becomes a valuable credential for a resume and if a potential employer doesn't know its significance, it provides another opportunity for the student to explain the significance of certification."

Phil Hanney
Orem Junior High School

IC³® INTERNET AND COMPUTING CORE CERTIFICATION

Help Your Students Define Themselves in a Digital World

In a world where computer technology is an essential part of school and work life, one certification can give your students a clear advantage: The Internet and Computing Core Certification (IC³). This globally recognized certification provides both students and job seekers with the foundation of knowledge needed to excel in fields that involve computers and the Internet.

The IC³ Global Standard 4 reflects the most relevant skills for school and business today, including:

- Computing Fundamentals
- Key Applications
- Living Online

With IC³ Certification, your students have the focus they need to succeed in both their academic and career pursuits.

Living Online
Covers skills for working in an Internet or networked environment.

Key Applications
Covers popular word processing, spreadsheet and presentation applications and the common features of all applications.

Computing Fundamentals
Covers a foundational understanding of computing.

Exams make use of the latest testing technologies, including the integration of both performance-based and knowledge-based testing.

"There is a real mix among high school students surrounding their basic knowledge and understanding of computers. These IC³ exams push them all to a new level where each learns something critical to their academic success."

James Coomes
Eastern High School

Benefits to Teachers.

Based on the current thinking and best practices in technology education, the IC³ Certification program equips teachers with a proven, state-of-the-art program that offers several advantages, including:

- Data-driven decision making through reporting to show successful completion of funding requirements.
- Unbiased examination through psychometrically validated certification exams.
- Universal portability and relevance as a recognized global standard in digital literacy.
- Ready solution that is more cost effective and time efficient than assembling an assessment to meet national or local educational requirements.
- A professional development tool that boosts instructor confidence to integrate the latest technology in the classroom.

Benefits to Students.

By helping you focus and validate your students' skills in the critical areas of computer technology and the Internet, IC³ Certification provides your students educational and occupational advantages, including:

- Strong foundation of skills on which to pursue higher education.
- Portable credential that is valued anywhere and accessible through fraud-proof online digital transcripts
- Prepares students with tools for an industry-recognized credential for employment
- Accelerated success and shorter learning curve in areas involving computers and Internet.
